To Whom It May Concern:

Joanne Lester has worked with us as head of our perennial department and more recently, as a customer in her landscape business. She is very knowledgeable in the horticultural field and provides great advice to her customers.

Joanne is very dedicated and works very hard to make sure her clients are well satisfied. She is a perfectionist and wants everything to be as good as it possibly can be.

It is a pleasure to work with Joanne. She is a very good customer and is always prompt in her payments. We highly recommend both her character and her business.

Sincerely,

Brian Minter
President

BM/jc
